Make Smarter Decisions for Financial and Clinical Impact

DOWNLOAD THE WHITE PAPER

Smarter Decisions Begin with Better Data

- ✓ Understand the impact of planned purchases on CMS and private payer reimbursement.
- ✓ Consider indications for use, patient demographics, and comparative clinical effectiveness.
- ✓ Anticipate any associated environmental factors needed to support the adoption of new devices and technology.
- ✓ Evaluate features, functions, benefits, and total cost of ownership.
- ✓ Measure and improve upon patient outcomes.

Empowering healthcare providers with a step-by-step guide to making smarter decisions with better data for optimal financial and clinical impact.

The Strategic Role of Clinical Evidence in Value-Based Healthcare Capital Planning whitepaper will illustrate how introducing clinical evidence into the capital planning process can foster a more collaborative, strategic decision-making framework.

Written by Bill Donato, General Manager of MD Buyline and Winifred Hayes, Founder of Hayes, Inc.
